

SAVING TIR NA NOG

Additional Educational Projects

STEAM

Build a miniature/model home for a water, wood or air spirit using only those materials found in nature.

Environmental Security

Design and implement a group project that will help improve the environment in your local community.

or

Write a letter to your mayor, governor, state legislators, and/or U.S. senators and representatives advocating for a policy that will help protect or improve our environment.

Cartography

Design your own map of *Tir na nOg*. What would you include to ensure the *Sidhe* can meet their basic needs and be happy? What would you exclude in order to preserve their environment and minimize health threats? What would you include so you could be happy living there?

Language Arts

Write a letter to the author. Share what you liked about the book, identify the character you connected with most, and offer ideas for the next book in the series.

Social Studies

Design and implement a kindness project. Evaluate how that project impacted the people who were in your target group. How did it improve your community/school? How did it change you?
